

Sunburst Learning Solutions

Focused on Student Achievement

Differentiated Instruction

Students need to be educated as individuals to maximize student achievement.

Research and Standards-Based

NCLB requires educators to teach to standards. Administrators need to feel secure that they provide the best tools to succeed.

Reporting and Accountability

NCLB requires educators and administrators to measure activities and progress of students.

Assessment

Improved student achievement begins with accurately assessing the starting point and being able to diagnose learning gaps. Solutions also require assessing the precise needs of the district.

Quality Implementation and Ongoing Support

Provides teacher centric implementation and fosters ongoing and nurturing relationships with teachers. Solutions communicate to teachers in their vernacular.

Customizable

Districts usually need product or off-line customization to address the unique composition and needs of their district. We deliver solutions, not products!

High Return on Educational Investment

They are based on NCLB requirements but customized to the challenges facing your school today to provide the highest return on your instructional investment.

Intensive Instruction

Students require intensive interventions based on diagnostic assessment and extensive progress monitoring.

Increased severity of need and level of required resources.

Prescriptive Instruction
Automated Differentiated Instruction

Supplemental Instruction

Some students need additional practice and supplemental instruction based on diagnostic assessment and extensive progress monitoring. Materials need to be standard and research based.
