

Assigning a Resource to Students is Super Easy!

1. In the resource you are viewing, click the Class Roster tab.
2. Select a class from the Select Student Class drop-down menu.

You will see three columns:

- The left column, Student Name, will list the students who are enrolled in the class you selected.
 - The middle column will list the individual resources assigned to each student.
 - The right column lists resources available to assign.
3. In the Student Name column, select the students to whom you will assign the activities.
 4. Click the arrow on the left of the right column to assign the activity to the student.
