

Our Standard Engine is Intuitive and Powerful

The Standards module is an easy way for you to find QuickMind.net resources that match Pennsylvania state standards. Search by standard or by resource.

Browsing by Standard

1. Under Browse on the Teacher home screen, click Standards.
2. Click the Search by Standard button at the top of the screen.
3. Select a specific set of Pennsylvania standards, curriculum area, and grade level and click Go.
4. In the Standard box, select a grade level folder, then continue clicking to the lowest standard detail. The detail levels of the standards tool align to the levels of the set of standards you chose.
5. In the Filter Resources box, click the Go button. A list of resources will appear in the window. You can view a resource by clicking on the blue link.
